

Circuit Breaker Timer Kit

Model : QCBT- 1

Application:

- Suitable for Indoor / Outdoor /LV/HV Breaker of Various types and Coil voltages 24V to 220V AC/DC, 10Amp
- Suitable for Live Switchyard Measurements up to 220KV

Features

- User selectable 3 / 4 pole measurement
- Compact and light weight instrument
- Highly accurate
- 0 to 9999.9mSec
- small portable, light weight constructed in suitcase for field use.
- Resolution : 0.1ms
- Type test certification for ESD test (IEC 61000-4-2;2008)
IEC 61000-4-11:2004
Surge test (IEC 61000-4-5:2005)

Technical Specification

| | |
|------------|-------------------------------------|
| Display | : 4 Line backlight LCD display |
| Poles | : Three / Four user selectable |
| Ranges | : up to 9999.9 mSec |
| Resolution | : 0.1mSec |
| Accuracy | : 0.05% \pm 1Digit |
| Modes | : Close, Open, C-O with Bounce time |
| Power | : 230V AC, 50Hz, 1 Phase |

Standard Accessories

- Color Coded test probe set
- Mains Cord
- User Manual
- Calibration certificate
- Leads set
 - R, Y, B, Com : 8 meters each
 - control cables for +ve, Trip and Close : 5 meters each
