

Turns Ratio Meter

Model : QTRM-1

Application:

- POWER TRANSFORMERS
- DISTRIBUTION TRANSFORMERS
- CURRENT TRANSFORMER
- MOTOR
- LIVE SWITCH YARD MEASUREMENTS

Features

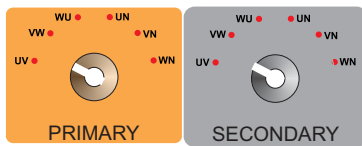

- Automatic operation, No balancing is required
- Measures and displays transformer Ratio, Excitation Current
- 20 X 4 backlit LCD display for Ratio and excitation current.
- True 4 terminal measurement.
- Fully protected against any wrong connections.
- Single Phase / Three phase model
- Phase selection through selector switch

Technical Specification

Power Supply : 230V AC, 50Hz, single phase.

Test Voltage : 100 and 10VAC user selectable

Test Leads : 5 Meters each for LV and HV winding connection

RATIO RANGE

0.8 - 2000 Auto Ranging

ACCURACY

$\pm 0.5\%$ FSD ± 3 Digits
